#### PEACE AMONG RAILROADS.

WESTERN ROADS COMING TOGETHER

AS THE EASTERN ROADS HAVE COME. Pians Now Developing Point to a "Commu-nity of Ownership" West of Chicago and St. Louis—A Restraining Hand Laid on the Chicago, Burlington and Quincy, Which Sought a New Outlet to the Pacific.

An apparent shifting of stock interest in the Chicago, Burlington and Quincy is causing much talk. Some railroad men believe that Union Pacific interests are absorbing the Burlington; others say that the Pennsylvania Railroad is securing control, and many, accepting the assur-ance of Burlington's chief officers, believe that Burlington is destined to maintain its independence, but that both the Union Pacific and the Pennsylvania will have a voice in its management as large stockholders.

Current events show clearly that the railroads west of Chicago and St. Louis are coming closer together in interest and in actual con trol, in a manner similar to that which has developed in trunk line territory under the guidance of the Vanderbilt-Morgan-Pennsylvania combination. All of the transcontinental lines and their Chicago connections have tacitly

vania combination. All of the transcontinental lines and their Chicago connections have tacitly agreed to avoid any clashing that may lead to a war of rates. In order to get these lines into shape so that they could be kept from fighting each other there has been asteady concentration of control within the past three or four years. To-day half a dozen men practically control the situation and comparatively little talk is heard of aggressive rivalries.

The Burlington, in its independence, has been seeking an outlet to the Pacific coast. Owners of the other transcontinental lines take the ground that there is not sufficient business for another road to the Pacific and a restraining hand is laid on the ambitious Burlington and it is being brought into line with the other roads in its territory on the "community of ownership" plan. The syndicate which controls the Union Pacific is credited with having bought a large amount of Burlington west of Chicago for several years, is also said to have become a large stockholder. The Union Pacific and Pennsylvania and Morgan interests went into Bultimore and Ohio—to insure unity of action and not to obtain physical control.

According to general report the Vanderbilt-Morgan interests went into Bultimore and Ohio—to insure unity of action and not to obtain physical control.

According to general report the Vanderbilt-Morgan interests went into Bultimore in favor of the "community of ownership" plan. If such is the fact it embodies an assurance that the interests of the Chicago and North-Western, a rival of the Burlington, will be protected, for the Vanderbilt influence is dominant in Chicago and Northwestern. The President of one of the principal transcontinental lines is authority for the statement that there is to be no warring between the railroads west of Chicago and St Louis. The plans for concentration of control, he intimates, are nearly completed, and ultimately the Western railroad interests will be held in compact form by groups. The Great Northern and Northern Pacr

manently. The Union Pacific is to be the nucleus of a vast and harmonious system; the Southern Pacific and the Atchison are planning to Join in a friendly spirit in new constructions, and the Missouri Pacific, the St. Louis Southwestern, the Missouri, Kausas and Texas and other subordinate lines in the Southwest are gradually uniting in a "community of ownership."

#### NEW SUGAR COMPANY ORGANIZES Its Stock Is for Sale-Mr. Havemeyer Says He Hopes It Will Do Well.

The organization of the new National Sugar

Refining Company of New Jersey, which controls the National, Mollenhauer and Doscher refineries, was completed at a meeting held at the law office of Corbin & Corbin in Jersey City yesterday. The company's capital is \$20. 000,000, divided equally between 6 per cent. cumulative preferred stock and common stock James H. Post, of B. H. Howell, Son & Co. was elected President of the company, F. D. Mollenhauer Vice-President and Treasurer, and H. D. Corey, Secretary. Besides the officers the directors are: Claus Doscher, F. H. Howell, George R. Bunker and H. F. Mollenhauer After the meeting the company's final incorpor ation papers were filed. The plants of the company in Yonkers, Brooklyn and Manhat tan, will be started up at once to their full cap-

tan, will be started up at once to their full capacity. Some of them have been shut down temporarily. President Post said in reply to a question regarding the reported interest of H. O. Havemeyer, President of the American Sugar Refining Company, in the new company:

"The stock is for sale. It has not been tied up so that those who have taken it cannot dispose of it. The Arbuckles may buy or the Rockefellers, if they wish it, and if those who have it choose to sell. I don't think, however, that they will choose to sell to any extent; I think the stock was taken generally to keep."

President Hagemeyer of the American Company, when asked yesterday if he had any statement to make concerning the new company, or relative to the sugar situation, said:

"No, I have no statement to make. The new company does not concern me. I have obtained my information of its formation from the papers. Three independent refineries have been bought outright by B. H. Howell, Son & Co. It is a reputable firm and a wealthy firm, and is composed of good business men. I hope they'll do well. The advances in sugar have nothing to do with the new company. This is the busy season in our trade; activity will continue until November. Our board decided that this was our time to make money. So it raised the price of the product, and we are entitled to a fair profit, and it looks as if we going to make money—not too much—but we are entitled to a fair profit, and it looks as if we were going to get it."

#### B. & O. Dividend Rumors.

Renewed strength has been infused into Baltimore and Ohio Railroad stock in the Stock Exchange within the past few days by rumors that the directors were likely to declare a dividend on the common stock at the rate of 5 per cent. These rumors are based largely upon the personal statements of some of the B. & O. directors that the road would earn about 12 per directors that the road would earn about 12 per cent, on its common stock this year. There is, however, a determined sentiment in the board against declaring any dividend on the common stock at present. The betterment expenditures of the Baltimore and Ohio, according to present plans, will amount to several millions of dollars a year for the next five years.

#### Brooklyn Bankrupts.

David Cohen, a merchant, of 54 Thatford street, yesterday filed a petition in bankruptcy in the United States Court in Brooklyn. The liabilities are given as \$359,887.30 and the assets at \$16,080.50.

Lee Ehrlich, a builder of Bath Beach, has also failed with liabilities of \$39,917.53 and assets, which are mostly bad debts, scheduled as \$55.708.51.

Albert S. Stevens, a tobacco dealer of 254 Clermont avenue, has failed, with \$9,511.68 in liabilities and \$2,673.55 assets.

#### FINANCIAL AND COMMERCIAL.

SATURDAY, June 2. As is usually the case at the end of a week in which the speculative community has indulged n bullish sentiment, there was to-day a dispo sition to take profits on recent speculative ventures. The profit-taking disclosed the fact that, with the demand for stocks to cover short contracts pretty well satisfied, there is not nuch support from other sources. The pool is Baltimore and Ohio common appeared to be undisturbed by these circumstances and, in conse quence, that stock closed nearly two points higher than yesterday. There was also some buying of Southern Pacific on the publication of an interview with the President of the company, intimating that a dividend might be paid upon the stock in the near future. Atchison issues, Pennsylvania, Missouri Pacific and a few of the specialties were also exceptions to the reactionary tendency of the day. Throughout the remainder of the list moderate selling resulted in fractionally lower prices, for the majority, while the iron and steel stocks were execptionally weak on light transactions. New York Central, People's Gas and Louisville and Nashville sustained noteworthy net declines.

The weekly statement of averages of the Associated Banks shows a gain in lawful money of over \$4,000,000, the greater part of which was n specie. The loans, owing to heavy borrow ings in connection with syndicate operations at the close of last week, show an increase of \$7,347,000. The net result brings the surplus up to over \$20,000,000, which is a fairly good showing for this season of the year. The improvement in values on the Stock Exchange this week has been chiefly due to the cessatio of liquidation and apprehension on the part of the short interest because of the fact first mentioned. A more hopeful feeling has been created by the successes of the British forces in South Africa, by the developments in the sugar-refining industry, by the acquisition by the Consolidated Gas Company of its last remaining competitor, the Standard Company, and by more favorable crop weather in the West. It is to be noted, however, that all of these events, several of which are of the firs importance, have not stimulated speculation beyond the circle of professional operators. The public still holds aloof from the market, except that the low rates for money and its steady accumulation at this centre induce some buying of both bonds and stocks of the highest

The defeat of the anti-trust movement in Congress yesterday had no effect upon speculation, because the purely political character of the measure was thoroughly understood. The Street is now watching railway traffic returns, bank clearances and trade reports, particularly the last named, with the view of determining when the readjustment in prices and the reaction in business shall have run their course. At the moment views as to the condition of the iron and steel industry are somewhat more encouraging, though prices are still being shaded and mills closed. It appears that orders are being booked at concessions which are satisfactory to producers and manufacturers and, ob viously, when a sufficient number of orders have been secured to employ the fortunate concerns obtaining them for some months to come, an improvement in the industry will be formally admitted.

But no matter how favorable trade and cron developments may be during the next few months, the fact remains that the country gen erally, and Wall Street in particular, is bound to proceed with caution in the conduct of their affairs on account of the Presidential campaign. Confidence that the present administration of national affairs will be supported and continued, though exceedingly strong in many quarters, is not likely to prove sufficient to overcome the timidity and prejudice begotten of precedent

As compared with the final prices of last Saturday the entire list is higher. The more important net advances are in Baltimore and Ohio, 6% per cent.; Burlington and Quincy, 4%; American Sugar Refining, 4; Baltimore and Ohio preferred and Metropolitan Street Railway, 314 each: Atchison preferred, 3%; American Steel and Wire preferred and Pennsylvania Railroad, 316 each; St. Paul, 3; Reading first preferred, 2%: Union Pacific, 234: Rock Island and Continental Tobacco, 21/2 each; Atchison, 236; Southern Pacific and Tennesses Coal and Iron, 256 each; American Steel Hoop, Coat and fron, 2st each; American Steet Hoop, 2st American Tobacco, 114; Federal Steel and United States Leather preferred, 134 each; People's Gas and Union Pacific preferred, 134 each; Louisville and Nashville, 134; Brooklyn Rapid Transit, Consolidated Gas and Northern Pacific, 134 each; American Steel and Wire, Chesapeake and Ohio and Manhattan Railway, 1 each; Anaconda Mining, Missouri Pacific and Southern Railway preferred, 3s each; American Tin Plate and Norfolk and Western, 3s per cent.

CARNEGIE BOND SALE STORY. If \$110,000,000 Have Been Disposed Of

Abroad People Here Don't Know It. It was reported yesterday that Charles M. Schwab, President of the new Carnegie Steel Company, who has just returned from Europe, had, while abroad, disposed of more than two-thirds of the \$160,000,000 6 per cent. bond issue of the company. According to the report, Mr. Schwab had met Mr. Carnegie in Europe and the sale of the bonds to foreign financial interests was then arranged, the price obtained being 123. The bonds are 100-year bonds and the portion sold abroad, it was stated, will be made specifically payable in London in pounds sterling. The buyers were reported to represent both London and Berlin, the total amount of bonds taken by them being \$110,000,000, the remaining \$50,000,000 having been subscribed by the old Carnegie interests and their friends. The heavy capital thus raised, according to the report, was to remain in the company's treasury to be utilized eventually to buy steel plants at bargains when a general reaction occurred in the steel trade. The report was not verified. Yesterday Mr. Schwab was in this city, but not accessible. A director of the Carnegie company, who was seen, said he knew nothing about the report. Representatives of foreign banking houses discredited the story. financial interests was then arranged, the price

#### PRESIDENT BALDWIN BACK.

Says the New London Tunnel Is a Fine One | 38 PARK ROW, -Not So Big as Ours Will Be. W. H. Baldwin, Jr., President of the Long Island Railroad, reached this port on the steam ship St. Paul yesterday after a brief sojourn in England. He went directly from the steam ship's dock to his home at Glen Cove. It is believed that Mr. Baldwin will remain at the head of the Long Island road under the Pennsyl vania ownership. He and Fourth Vice-President

vania ownership. He and Fourth Vice-President
Rea of the Pennsylvania road have inspected the
underground railroads in London, and participated in two or three trial trips through the new
central underground tunnel in the British metropolis. Of this recently completed tunnel Mr.
Baldwin said yesterday:

"It is the most magnificent thing of its kind
I have ever seen. The diameter of the tunnel
is 12 feet 4 inches, and the whole construction
is a triumph of engineering art. You will recall
that the proposed New York tunnel will be
14 feet in diameter."

President Baldwin said that the British railroads were rapidly adopting the American style
of passenger car.

#### Notes of Wall Street News.

The Executive Council of the New York State Bankers' Association at a meeting at the Waldorf-Astoria yesterday selected Saratoga Springs as the place and Friday and Saturday Springs as the place and Friday and Saturday.
July 13 and 14. as the time for this year's annual
convention of the association. The Committee
of Arrangements for the convention will consist of J. H. Ridder, Citizens' National Bank,
Saratoga, E. T. James. First National Bank,
Glens Falls; Gen. A. C. Barnes, Astor Place
Bank, this city; Edwin S. Schenck, Hamilton
Bank, this city; E. O. Eldridge, Owego National
Bank, Owego. Bank, this city; E. O. Eldridge, Owego National Bank, Owego.

The reorganized Board of Directors of the Kansas City Southern Railroad has elected E. H. Harriman chairman Max Pam, general counsel, says that the new securities of the company are to be distributed here and in Europe simultaneously during the present month.

#### Clover Leaf's New Plan.

An official announcement of the new plan of reorganization for the Toledo, St. Louis and Kansas City Railroad will be issued by the bankers' syndicate early in the present week. bankers' syndicate early in the present week. Its outlines are as follows: The syndicate headed by Vermilye & Co. and Hallgarten & Co. will purchase the \$9.000.000 of first mortgage & per cent. bonds at 130 net to holders, with interest at 4 per cent. from June 1 to June 30, at which date payment is to be made. The new company will issue prior lien 3½ per cent. bonds, 4 per cent. first mortgage bonds and common and preferred stock. Holders of the old bonds can have either cash or new securities for their holdings. Receiver Hunt of the Clover Leaf has brought suit against former President S. H. Kneeland to recover \$500.000 for failure to carry out a contract for improvements.

#### Live Stock Market.

Live Stock Market.

SATURDAY, June 2.

Receipts of sheep and lambs were 1.355 head, including 2 cars for slaughterers and 3½ for the market; making, with the stale stock, 6½ cars on sale. Sheep ruled dull and barely steady; yearlings were scarce and firm; lambs were in very light supply and prices strong, quality considered. One and a half cars of sheep unsold. Medium to prime sheep sold at \$4.25.0\$4.87½ per 100 bs.; medium yearlings at \$6.25; fair to good lambs at \$8.00.8\$8.25. Dressed mutton slow at 7.0.9½c. per B.; dressed yearlings steady at 19@11½c.; dressed lambs at 11.0.14c. mutton slow at 7@9½c, per 35.; dressed yearlings steady at 9@11½c.; dressed lambs at 11@14c. Receipts of hogs were 1,607 head, all for slaugh-terers with the exception of 10 head. Feeling steady. Prime Jersey hogs sold at \$5.65 per 100 3s.

### financial.

If you use financial information you want some-thing better than blind telegrams "to buy on de-clines" or "sell on rallies." Frofitable information must not only be seasonable, but intelligent for seri-ous attention, and of service to traders who are not at tape five hours in the day.

THE "DAILY STREET LETTER" has been issued since 1896, and is a daily bulletin of financial forecasts, which has maintained an average

# OVER 75% CORRECT and used by traders all over the country. As Sugar has been the leading feature in the market the past two weeks, we give the verbatim extracts from our service since May 12th.

service since May 12th.

May 12-Sugar then 110.

"Sugar will swing from 106 to 120," "buy it on next dip."

May 14-Sugar sold 10634. "Buy it."

May 15-Sugar 110. "A purchase round 106 again."

May 16-Sugar 10614. "Buy it."

May 17-Sugar 10534. "May reach 105, but buy around there."

May 18-Sugar 10536. "Keep long."

May 21-29-"Hold long Sugar or BUY."

May 31-Sugar sold 120. Note advices above on May 12.

### INVEST IN NUTMEG ZINC.

Do you know of any other legitimate invest-ment that yields a sure profit of from 150% to 200%, as sine mining does? Do you know that the big capitalists are rap-idly buying up every foot of the rich zine field in Northern Arkansas which holds the world's supply of zine?

idiy buying up every foot of the rich zinc field in Northern Arkansas which holds the world's supply of zine?

In a very short time any share, however small, in these zinc mining enterprises will be beyond the reach of people of moderate means. The millionaires will make more millions, and the general public will be out in the cold.

The time to act is now.

Right in the very heart of the richest part of the Arkansas field, surrounded by mines famous for the wealth they have already yielded, the Nutmer Zinc Mines Company owns, without incumbrance, 160 acres of the most valuable zinc property in the region.

Stock is being sold at 60 cents—par value \$1.00—and the money thus secured is being used solt by to develop the mines.

The price of stock may go up at any time and will certainly be advanced before long.

The capitalization of the Company is small, thus insuring large dividends, and the management of its affairs is in the hands of men of established reputation and wide experience in mining operations. The fullest investigation is courted. Make checks payable to Geo. C. Irvin, Secretary, or F. S. Griswold: Treasurer.
